A FEW CHANGES ARE MADE

They are of Minor Importance, However, and the Agreement Virtually Stands as Reported to the City Council.

The most important question before the county court yesterday, was the considera-tion of the proposed adoption of the agreement presented at the city council on Tues Deficiency of temperature since March 1, 1891, 63.

Rainfall, trace: mean daily, 13 years, 0.06

Estimating that the buildings of this city are worth \$30,000,000 and insured for two-times.

The agreement was then re-read by the

The agreement was then re-read by the clerk and further digested by the members, Selectman Howe remerking that it was a good deal to take at one dose.

The agreement was adopted subject to a few changes of minor importance.

The county, as well as the city, it would appear, seems to think it called upon to make an effort to further regulate the liquor traffic. Under the law, it is said the county has the right to insist that a new application for liquor license must be accompanied by a petition from the residents of the neighborhood in which it is proposed to establish the saloon.

Judge Bartch wants to insist that this THE LIQUOR LICENSE QUESTION.

the county conceter submitted the ques-tion whether the owner of any property which has been sold for taxes, together with that of other parties may segregate the same and redeem it by paying his pro-rata of the taxes and costs due thereon. Referred to the county attorney.

Amusements during the winter have been both numerous and plenty. Money is tight, is the cry, but I find that considerable has changed hands lately— Savings account that is, it has gone into the pockets of those who have come to assuse us. We need amusements, it is true; but we also need many things for which the money would are as follows:

have been better spent. Franklin is building up by degrees. We have two schools in good running order—one church and one district. Last fall it became evident that we needed more school accommodations, and a few of the leading men resolved to build a new schoolhouse. In one month from breaking ground the building was ready for occupancy. Mr. Monson is erecting a fine sawmill, lath and shingie mill close to the depot. Our young men make money hauling logs.

he Importance of Keeping a City in an Insurable Condition-Effects of Fire Traps.

An expense that is nearly as universal as taxes is insurance. A man who does not insure his building is looked upon as a reckless fellow and should his property be reduced to ashes he fluds few sympathizers. Estimating that the buildings of this city are worth \$30,000,000 and insured for two-thirds that amount or \$20,000,000 it is easy to see that it costs something to keep up the insurance. The rate of insurance depends on a great many things. If the buildings are fire proof or nearly so and are not occupied by materials that are liable to

penason a great many things. If the build-ings are fire proof or nearly so and are not occupied by materials that are liable to burn, the rate is made very low.

The business of rating buildings is now confined to the Pacific Insurance union and whatever ratings the union places on a building govern the rate at which all legiti-mate insurance companies will insuranbuilding govern the rate at which all legitimate insurance companies will insure it.

W. S. Duval, general manager of the
Pacific Insurance union, was lately in this
city. The union controls the ratings for
the Pacific slope and as far cast as Montana, idaho and Utah. It has a branch
office in this city, which takes in Utah,
Idaho and Montana.

From Mr. Duval it was learned that the
